The Journey from Hypnoenergetics to Quantum Consciousness

Peter is the Founder of the Institute for Quantum Consciousness, Institute of Hypnoenergetics and President of the Michael Newton Institute for Life between Lives Hypnotherapy. He has spent many years exploring deeper realms of consciousness and has appeared on television and radio both here and overseas, as well as a number of documentaries. He is one of Australia's best known Spiritual Hypnotherapists, is a Certified Instructor with the International Association of Counsellors and Therapists and has trained Life between Lives Hypnotherapists across the US, Europe and Australasia. He is the author of *Hypnoenergetics – The Four Dimensions*, and a co-author of *Memories of the Afterlife*. His next book *Quantum Consciousness – Expanding your Personal Universe* is due for release in 2015.

Peter's groundbreaking work with Hypnoenergetics brought Hypnotherapy, Energy and Consciousness into one complete philosophy and model as a way to heal traditional issues. By understanding ourselves as energetic beings, we can release trapped energy from our different dimensions. Peter's more recent work with Quantum Consciousness has further shifted these mindsets to embrace some of the core principles of Quantum Physics and blend those with Expanded States of Awareness to create the Quantum Consciousness Experience.

The Evenings' Presentation will Focus on;

- *Background to Hypnoenergetics and the Four Dimensions of our Being.*
- *A Summary of the Energetic Experiences offered during the Hypnoenergetics modality.*
- *The Background and Philosophy behind the Quantum Consciousness Experience.*
- *Client cases from the Quantum Consciousness Research Database that cover Alternate Realities, Parallel Lives and Interdimensional Existences.*
- *Lessons from the Great Consciousness Explorers, like Michael Newton, Greg Braden, Bruce Lipton, Michael Talbot, Lynne McTaggart etc.*
