Anthroposophic Medicine ~ An Introduction to the Threefold

Nicole is an ANTA registered Naturopath and has been practicing for 18 years. She has a Diploma in Homeopathy and also completed a five year International Post Graduate in Anthroposophic Medicine in 2007. She currently works from both her home clinic and the Melbourne Therapy Centre, an integrated medical centre dedicated to the practice of Anthroposophic Medicine. She has worked and trained with many of Australia's, New Zealand's and Europe's most experienced Anthroposophic doctors.

Rudolf Steiner was an Austrian Mystic, Philosopher, Social Reformer, Architect and Esotericist. He also worked to establish various practical endeavours, including Waldorf education, Biodynamic agriculture and Anthroposophical medicine. Nicole has a particular interest in developmental and constitutional support of children and adults utilising the remedies and pictures of the human being provided through Anthroposophic medicine. She has found these remedies and principles, in conjunction with biographical work, provide a powerful tool for people to work through deep life questions and blocks.

The Evenings' Presentation will Focus on;

- *A Brief History of Anthroposophic Medicine.*
- *An Introduction to the Threefold Picture of the Human Being.*
 - *Characteristics of the Threefold.*
 - *Identifying the Threefold in Ourselves.*
- *Therapeutic Interventions to Balance the Threefold.*
