The New Model of Love ~ The Best Chance Ever for World Peace

Charles is a husband and a father of two beautiful children. He arrived in Australia as a Cambodian refugee in 1976. He worked in Singapore for five years after graduation. He moved back to Australia because his son was born with a rare medical condition. His experience living among many different cultures has given him a unique perspective of life which sparked an epiphany that led him to write his book, *'The New Model of Love'*. Charles earned Bachelor's Degrees in Economics and Engineering and a MBA. A refugee, an Engineer, a Business Development Manager, a Banker, a Product Manager, and an Investor, he is the creator of a new movement called Modelism and is the first Lucid Modelist.

Throughout history, we have been conditioned by society, media, education, and family to believe we need to seek love from others to be happy. The New Model of Love examines and challenges this tightly held and deep-seated belief. Charles offers an opportunity to experience abundant joy and happiness in all your relationships with the goal of naturally and freely experiencing infinite love. The new model of love will forever change how humans relate to each other, resulting in peace in the world.
