

ASTRO Networks Victoria Inc.

is proud to present

Dr. Richard Presser

to speak on

The Extraordinary New Technologies of Mehran Keshe and his Understandings that are Transforming our World

Richard has a PhD in Materials Engineering - Monash University. He is also an experienced Energy Healer and Spiritualist who has explored many healing modalities including Reiki Seichem. He has a keen interest and direct involvement with the Keshe Foundation and its products, globally, under the business name of Magravs Plasma Products.

Mehran Keshe is an Iranian Nuclear Engineer educated in Europe and Britain. Keshe has explained that there is a field (he calls it a plasma field) behind all things we experience. He has also introduced a 4th state of matter which he calls GANS (Gas As the Nano State). He explains that all living things operate as a plasma and the contents of our bodies are in the GANS state. This technology has the potential to bring us unlimited energy, replace our need for food and water, transform healing methods, provide the vehicle for intergalactic travel and power our houses indefinitely from a small unit the size of a shoebox.

The Evenings' Presentation will Focus on;

- *Introduction to Richard and his Journey.*
- *An Introduction to Mehran Keshe.*
- *Outline of the Technology and its Implications.*
- *Introduction to some of the Keshe Foundation Products.*
 - *Where this Can Go!*

**A Very Fascinating and Informative Evening!
Not to be Missed! See You There!!**

Monday, 10th of April, 2017

7:45 p.m.

Members - \$5.00

Non Members - \$15.00

Kew Library, Cnr Cotham Road & Civic Drive, Kew, 3101

Tea/Coffee/Herbal Tea with Biscuits provided
